Acrotec Group

Cybersecurity Manager (f/m), 100%

To drive and support Acrotec Group's HQ in its cybersecurity program, we are looking for a cybersecurity manager.

About the position

Acrotec's HQ is in Develier, Jura, Switzerland.
Partial remote working possible. Flexibility to travel as needed.
This role would report to Acrotec Group Head of IT.

Key responsibilities

- Drives the creation of the cyber security strategy in line with the global technology strategy and business objectives and considering key threats, companies' requirements, regulatory requirements, and technology trends.
- Designs and implements a comprehensive cyber security program to establish a Governance framework, controls, and mature cyber capabilities.
- Coordinates actions and information between Acrotec Group, its companies, and third parties with respect to cybersecurity topics.
- Prioritizes required cyber activities, identifies "quick-wins", and quickly improves high-priority capabilities.
- Performs cybersecurity activities related to infrastructure, applications, and systems management.
- Manage disaster recovery plan, business continuity plan, incident response and threat analysis.

What we are looking for

Must-have

- Bachelor's degree: degree in business administration, a technology-related field, or equivalent education-related experience. Master's degree preferred.
- Minimum of five years of combined experience in the Information Security / Cybersecurity / Technology domains with experience in information / cyber risk management.
- Sound knowledge of business management and an expert knowledge of information / cyber security strategy, governance, risk and compliance.
- Knowledge of common information security management frameworks, such as ISO/IEC 27001, COBIT, and NIST, including 800-53 and the Cybersecurity Framework.
- Excellent oral and written communication skills in French and English. (other languages would be a plus).

Acrotec Group

Nice-to-have

- Professional security management certification, such as Certified Information Systems Security Professional (CISSP), Certified Information Security Manager (CISM), or other similar credentials.
- Experience working in a highly federated environment.
- Experience and familiarity in the watchmaking and High-Precision industry.

What we offer

- Join a federation of know-how and talents brought together by common values.
- Take up the challenges of a group of entities following a federated model.
- Develop your skills in a Swiss group with a strong growth trajectory.
- Attractive working conditions and compensations.

About Acrotec Group

Acrotec is an independent group created by micromechanics professionals. Its main objective is to be a reference subcontractor, offering a wide range of manufacturing processes for precision components. Its strategy is to provide "Swiss-made" quality products to the entire watch and jewelry industry, the medical industry, as well as to the automotive, electronics and aeronautical sectors.
The group employs over 2,400 people.
